Velocity

Velocity 1.0

THIS KIT IS
FULLY CUSTOMISABLE

Sharp diagonal lines slice across the kit, each one filled with smooth, shifting gradients that blend motion with style. This design feels like speed in visual form—perfect for teams that thrive on pace, energy, and flair. The gradients shift tone from top to bottom, giving a fluid sense of motion even when standing still.

Vortex

Vortex 1.0

THIS KIT IS
FULLY CUSTOMISABLE

Minimalist at first glance—but with depth in every detail. Vortex pulls you in with precise vertical striping that shifts in tone as it flows downward, creating a feeling of controlled momentum. Black dominates the core, flanked by crisp white sleeves that sharpen the silhouette. For clubs that thrive on pressure, discipline, and relentless force.

Canvas 1.0

THIS KIT IS
FULLY CUSTOMISABLE

Sport meets street art. Canvas turns the pitch into a gallery with expressive brushstroke layers in teal and indigo, each one bursting with creativity. No two kits feel exactly the same—just like no two players bring the same flair. Designed for clubs that play with personality, confidence, and unapologetic style.

Sublimation is a process where the design is dyed directly into the fabric, making it part of the garment itself. This results in a lightweight, breathable finish that won't crack, peel, or fade over time—ideal for full-kit designs and all-over patterns. On the other hand, DTF printing involves transferring high-resolution graphics onto the fabric using a heat press.
